

AHMET CAN GENC

UNITY GAME DEVELOPER

SUMMARY

Self-driven Unity Game Developer specializing in C#, OOP, and clean architecture. Adept at building scalable gameplay systems, robust AI logic, and modular mechanics using SOLID principles. Highly motivated problem-solver with a strong work ethic, actively developing performance-optimized mobile games.

EXPERIENCE AND PROJECTS

Bakery Tycoon | PlayStore | 2026

- Engineered a scalable isometric mobile tycoon game using Unity 6 and C#
- Developed autonomous customer AI using Unity NavMesh for dynamic pathfinding and intelligent queue management.
- Architected decoupled interaction systems utilizing C# Interfaces (IInteractableAI) for seamless NPC-to-object communication.
- Optimized inventory querying mechanisms across the store using high-performance Dictionary data structures.
- Applied SOLID principles and Clean Code practices to ensure a highly maintainable and mobile-optimized codebase.

Shooting Range | 2026

- Developed a shooting range simulation featuring customizable weapon systems (recoil, range, damage, magazine capacity).
- Implemented precise hit-detection mechanics utilizing physics-based Raycasting.
- Designed dynamic scoring statistics and integrated visual feedback (VFX) to enhance game feel.

Inventory System | 2026

- Built a modular and scalable inventory system adhering to Clean Code practices.
- Engineered physics-based object interaction mechanics for picking up, dropping, and handling items.
- Integrated object detection systems utilizing robust Raycast mechanics.

CERTIFICATIONS

- C# Programming – Udemy**
- Git & GitHub – BTK Akademi**

EDUCATION

- Information Technologies – Software Development
- ITO Vakfi Vocational and Technical Anatolian High School
- 2021 – 2025

TECHNICAL SKILLS

- Core: C#, Unity 6 (2D & 3D), .NET
- Architecture & Principles: OOP, SOLID Principles, Clean Code, Interface-Based Design, Singleton
- Game Systems: NavMesh AI, Physics & Collisions, UI Development, New Input System
- Tools: Git, GitHub, Visual Studio
- Soft Skills: Analytical Problem Solving, Self-Learning, Team Communication
